

# Food Safety Program under Healthy Thailand Policy

## Objectives

- To protect consumers from hazardous chemicals and contaminants in food.
- To certify that the food are free from hazardous chemicals, contaminants and microorganisms.

## Scope of Certification

- **Food produced / sold in certain place such as**
  - Fresh market
  - Supermarket / grocery
  - Restaurant / canteen
  - Food producer
  - Street food vended
- **Food unnecessary for FDA registration.**

## Evaluation and Certification

Food will be tested for 3 times successively, if the first time passes the criteria, temporary (white) "Food Safety" logo will be distributed. When three times pass, permanent (gold) "Food Safety" logo and certification will be issued and the monitoring will be carried out afterwards.

**Recommendation for consumer:** -When purchase food, please take notice of the "Food Safety" logo.
